1000 WATTS

TELEPHONE  
5157

June 11, 1948

Mr. Ernest R. Cooper  
438 East 21st Street  
Brooklyn 26, New York.

Dear Mr. Cooper:

Thanks for your most interesting letter reporting reception of WVOT on <sup>May</sup> 30th 1948. The information you sent in has been checked against our program log and it is correct.

Please consider this letter your VERIFICATION FROM WVOT.

Don't quote me, but I understand WGTM will try to go on with 5 Kw. sometime in July or August. They have had some hard luck plus losing their new transmitter building and equipment with fire. It shouldn't be too long now.

WVOT will be on monthly for a frequency check, but the date and time have not been decided, it should be the latter part of the month tho.

Wilson has a population of approximately 25,000, maybe just a little more the way these towns grow down here. The WVOT studios and transmitter are located on U. S. 301 just outside of Wilson.

During June and July we sign on at 5:00 Am EST.

Thanks again for your fine report and good D-Xing.

Very truly yours,

N. V. Pieler  
Chief Engineer.
