Dear Mr. Cooper,

I am pleased to confirm your reception of WEZS(AM) on February 1 at 4:42PM and February 4 at 3:23PM through 5:00PM. WEZS operates daytimes with 5,000 watts into a non-directional antenna located in Sanbornton, New Hampshire. WEZS was originally licensed as WKAV, which began broadcasting in 1922 as an experimental station located at Laconia.

WEZS began broadcasting under its current call sign on November 1, 1994 after a brief period of silence during which time new studios and offices were constructed and improvements were made to its transmission facilities. We are one of the few stations in the country featuring an easy listening instrumental and adult standards format.

Thank you for your report and your interest in WEZS. I wish you continued success with DX listening.

Very truly yours,

Gary Hammond
Owner/General Manager
