

**NEWTALK 1020**  
The Twin State's Most POWERFUL AM

Mr. Ernest R. Cooper  
5 Anthony Street  
Provincetown, Mass. 02657

18 January 1990

Dear Mr. Cooper,

Thank you for your reception report of 1/12/90. Your description of our programming was most accurate especially considering the 1030 splatter and KDKA over-ride you had to copy us through.

WNTK was running 2,400 watts at the time you heard our signal. Our day time power is 6,500 watts and as your letter indicated we sign off at local sunset which in January is 4:45pm.

I am interested in knowing what source you used to get the ownership and address information about WNTK. Since it was incorrect and I'd like to see that it be corrected as soon as possible.

Enclosed is a coverage map and I would welcome you to tour our station should you ever be in our area. I have never had the hobby of DX'ing however I have been an avid amateur radio operator for over 30 years with the call sign W1HUX.

Best regards and thanks for the report.

Sincerely,

Robert L. Vinikoor  
President
