RADIO WJLA 1530 AM / 9 CALDWELL PLACE / ELIZABETH / NEW JERSEY / 07201 / TELEPHONE 201-965-1530 / ANTHONY LUPO, GENERAL MANAGER

January 18, 1971

Mr. Ernest R. Cooper, Editor  
National Radio Club  
438 East 21st Street- Carrier Route 23  
Brooklyn, New York 11226

Sir:

Thank you for your letter of January 5. I regret the delay in replying, but we have been plagued by much paperwork lately.

We have not yet acquired new QSL cards yet, so this letter will serve as confirmation of your reception report of January 4, 1971. You gave WJDM a good signal report, with some interference on 1530 kilohertz.

We have often thought of running our frequency checks on Monday mornings, but so has everyone else! Our measurement company cannot accommodate us on Monday, so our checks will have to stay at 1:00 a.m., on the fourth Friday of each month.

However, WJDM will be conducting proof-of-performance and other equipment tests on Monday morning, February 15, 1971. I hope that you can give us some publicity at this late date.

RADIO WELA 1530 AM / 9 CALDWELL PLACE / ELIZABETH / NEW JERSEY / 07201 / TELEPHONE 201-965-1530 / ANTHONY LUPO, GENERAL MANAGER

The last time we tested on a Monday morning, we got reports from as far away as Indiana and Ohio. We have secured the cooperation of the International Radio Club of America in publicizing this test, and I feel that your help would greatly aid in ascertaining our coverage areas.

I'm glad to hear that you enjoy our programming. As radio amateurs, both Gary Koster, the chief engineer, and myself have been interested in DXing of one sort or another, and we would appreciate your sending us a copy of the bulletin in which the announcement appears.

Until then, best of DX, and 73.

A handwritten signature in cursive script that reads 'Robert N. Palitz'.

Robert N. Palitz

Assistant Chief Engineer, WJDM
