Dear Mr. Cooper:

I am happy to confirm your reception report of WONZ on November 11, 1994. I am sorry that your previous letter did not reach my office.

The WONZ Transmitter is a CCA1000 located in Hammonton, NJ. Ninety percent of WONZ's programming is a simulcast of WOND. At sunset, power is reduced to 25 watts. Programming is supplied via an 8 khz audio circuit from our studios in Linwood, NJ. The Linwood Facility (Broadcast Plaza) houses all of the studios and technical facilities for WMGM-FM (50 kw), WOND-AM (1 kw), and WMGM-TV, Channel 40.

Thank you for your interest in South Jersey Radio's WONZ.

Sincerely,

A handwritten signature in dark ink, appearing to read 'Daniel J. Merlo', is written over a light-colored background.
