Dear Mr. Cooper:

This is to verify that your report of our Freq. check is correct in every respect. As for your questions we are on the air from six in the morning till ten at night, as for coverage I am not sure about that, The boss said that he picked us up one morning at eight o'clock 125 miles away, but we come down to half that or more at night. And as for the freq. checks they are the fourth Sunday of every month from 12:20 to 12:35.

Yours is the third letter of this kind I have gotten here as I just took over two months ago, But I hope this is what you were wanting for your collection.

Yours Truly
