Ernest R. Cooper, Ed.
National Radio Club
438 East 21st Street
Brooklyn 26, New York

Dear Mr. Cooper,

This is to verify your report of our frequency check made on February 12, 1951, 3:00 to 3:15 am MST.

KSIL operates on 1340 kc, with a power of 250 watts. KSIL is affiliated with CBS.

Our regular frequency checks are the second Mondays of each month at 3:00 am MST. The frequency measuring station is James N. Barkley of Dallas, Texas.

As you may have guessed, Silver City was originally a silver mining town. It is now the center of the mining district of southwestern N.M. Kennicott Copper has one of the largest open pit copper mines in the world near here.

Thank you very much for your report.

Sincerley yours,
Edward C. Orris
