

Ernest R. Cooper
5 Anthony Street
Provincetown, Mass 02657

October 11, 1995

Dear Ernest;

I'm very sorry we didn't get to this sooner. It simply did not drift down the chain far enough. WBUG-AM is part of a 5 station complex with offices in three different cities. Your letters stayed at the main office in Utica and never got to me in Little Falls. I usually handle verification reports.

I can certainly verify that you were listening to WBUG-AM both on January 4th and September 28th of this year. WBUG-AM is a 1000 watter daytimes and 204 watts at night. The sky wave must have been something. Or you have a super set!

Thanks for your letters and please accept ours as your confirmation.

Sincerely,

GARY VAN VEGHTEN
Operations Manager
