Dear DXer,

I am pleased to verify that your account of the reception of W B V M on October 15, 1962 from 5:47 P.M. to 6:13:05 E.D.S.T. is most accurate. I wish also to verify that your report of March 13, 1962 was also accurate, but do not know what happened to the report at that time.

W B V M Operated Daily from Sunrise to sunset, local time, using a Bauer, model 707 Broadcast Transmitter, 1000 Watts into a 220 Ft. vertical antenna, with a counterpois of 2200 Ft. radials spaced every 2 degrees about the base.

It gives me great pleasure to know that you heard us. I wish you continued good DXing and sincerely thank you for your report.

Very truly yours,

*Frederick H. Harrington*
