Dunkirk, New York

November 29th 1950

Mr. Ernest R Cooper  
National Radio Club  
438 E 21st Street  
Bklyn, N.Y.

Dear Ernest,

Glad you finally heard us. Since the Chf Engr is pretty busy these days with new network lines (PBS) I have taken the liberty to give you our QSL. Yes we operate 500 Watts. Yes we do beam our signals. Not so much because of WONS but WBNT in Buffalo. From sunrise to sunset we beam 98°. From sunset to Sunrise we use a two lobe pattern beamed 50° and 168°. No Ernest we do not interfere in anyway with WBNT. I guess that abt answers all your questions OM

Yours truly

*Maurice B. Lindenaux*
