WIRY

1340 On Your Dial

CLINTON COUNTY BROADCASTING CORPORATION

PLATTSBURG, NEW YORK

January 23, 1950

Dear Mr. Cooper:

Many thanks for your very kind letter of January 19 in which you have thrilled us no end by bringing us the most distant letter on our original equipment test of January 19, 1950.

We commenced the test at 2:26 and found it rather difficult in getting the transmitter broken in but by 3:15 we were really going out, as is evidenced by your logging from 3:30 to sign off.

This will VERIFY your reception of this original testing program.

It was very nice to note that we dominated our channel and we are very glad to add to your list of verifications and hope that you live another 17 years and have the same results in your hobby.

Our regular frequency test will be on the third Thursday of each month between 1:45 and 2:00 a.m., EST.

I am writing you in behalf of our Chief Engineer, who, as you can well realize, is exceptionally occupied. We expect to commence broadcasting activities Thursday of this week. Again thanking you and with best wishes from us all at WIRY, we are

Cordially yours,

RADIO STATION WIRY

Joel H. Scheier
