Mr Cooper:

Nice to hear from Brooklyn. Confirmation of reception is enclosed for February 9th. Some of what you logged for Dec 16th is us but some is not. The reason WRKL comes in so good is because they beam most of their signal southward whereas we go mostly north-northwest. Also they are 1000W while we're 500.

WKQW conducts a frequency check usually on the second Monday night (Tuesday morning) each month, beginning at midnight. Our next freq check is Monday night (Tues morning) March 11/12. Our proof was just completed recently....next one is next year.

If you have any other questions, feel free to ask.
