Dear Mr. Cooper:

Your letter of the 16th giving our programing of the 13th and 14th is found to be correct.

The call letters were changed from WNRC to WWES on Saturday the 13th. The reason for said change was the sale of the station to Radio Westchester which also owns WWIP whose frequency is 1310. You may also try to get them on your equipment.

Thank you very much for tuning us in and for your favorable comments on the new programing.

Wishing you a pleasant holiday. Solong and 73s.
