Provincetown, MASS 02657

Continuous Soft Favorites.

Dear Ernest:

Yes, indeed, it was us, our mighty 1000 watt Nautel transmitter booming out over the Northeast. We've recently been picked out of the air in places distant by others, who, like yourself, noticed the absence of WAGE.

Coverage map doesn't exist, but we are fulltime at 1000 watts, directional Northeast (surprise!) at night!

Try running the marches backwards. It's hilarious.

Best wishes, happy listening, and thanks for the letter!

Sincerely,

A handwritten signature in blue ink, appearing to be "Robert W. Wood", written over a circular stamp or mark.

Mr. Ernest R. Cooper
5 Anthony Street
Provincetown, MA 02657

Dear Sir:

I am writing to verify your reception of radio station WNSS on March 16, 1992. WNSS is a one kilowatt non-directional day and directional night on 1200 kilohertz. WNSS uses a Nautel Amphet ND-1 transmitter with a two tower array. WNSS has an all news feed with local inserts. WNSS is located in North Syracuse, New York.

Sincerely,

William Ryall
Chief Engineer
