

W S A Y

ROCHESTER, NEW YORK

1210 KILOCYCLES, 250 WATTS

Your report of reception on our DX program of January 30, 1940 was very good. We are sorry that you had so much trouble with interference from WEDC, and hope that you will have better luck next time. Our regular frequency test is the 2nd Friday of each month from 3:25 to 3:40 AM EST. May we hear more from you.
