Dear Mr. Cooper:

Thank you for your letter of September 12, in which you claim reception from 6:55 to 7:15 p.m.

I am very happy to verify your report and inform you that you were very accurate in the logging of our program at that time.

Our frequency check schedule is from 1:00 to 1:15 Wednesdays mornings, the first and third weeks of every month. Our transmitter is modulated with a 1,000 cycle tone, and our monitoring station is at Riverhead, Long Island.

I am always pleased to hear from any N. R. C. member. Your information is very helpful.

Best wishes from WWHG for your DX scoreboard!

Yours very truly,

Bill Amidon
