April 5, 1950

Mr. Ernest R. Cooper
National Radio Club
438 East 21st Street
Brooklyn, 26, New York

Dear Mr. Cooper:

Thank you for your card of April 2d, and the information contained therein. We are aware that WVOM puts through an interfering signal beyond our $3\frac{1}{2}$ millivolt contour. However, we are still operating on 250 watts, and we are not laying down $3\frac{1}{2}$ millivolts in your area.

We are awaiting our license to operate the new 5 KW transmitter from Secaucus, New Jersey, which according to the measured contours will place an interference free signal in your locality.

Thank you again for writing us.

Yours very truly,

LONG ISLAND BROADCASTING CORPORATION

W. H. Reuman
