RE: Reception

Yes, yes, we can verify your 1050 YBG reception on 8 January 1986. And, we're delighted that our poaching friends at WHN allowed our signal through their sometimes directional pattern that bangs into Northern New York nearly everytime we are forced off the air by our friends at the Federal Candy Company.

You asked about Wibbage ... we no longer use that handle. We now call ourselves "Music Radio for the Seaway Valley".

We're enclosing a coverage map. This map shows our heavy and light response. Thanks to your Radio it looks like we may have to spend a good deal of money getting a reprint. However, anytime we can be heard on the cape should goad us into some kind of celebrations!

Thanks for your letter, and, keep it on 1050 YBG!
