Brooklyn 26, New York

Dear Mr. Cooper:

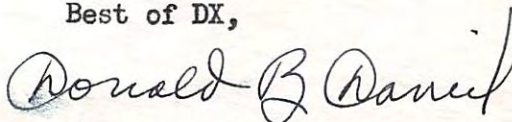

I am down to the bottom of the pile, and here you are. I would like to VERIFY your reception of our signal January 30, 1950. We had a big time here putting on the DX program and were pleased by the forty-eight DX reports. We received one from New Zealand, as you predicted, three from Canada and the remainder from all over the United States.

I am very sorry about your bad luck with the bottle of RX-7-11, but I don't think I am going to be able to get you another. Our sponsors supply went faster than he expected.

I am sorry to report that no one requested a copy of your bulletin. However, I did note that a large number of our reports were from members of your club.

I hope to be hearing from you DXers again from time to time. We have no regular frequency checks as our checks are made by a company in Oklahoma City and it is done during the day, but I will probably do some listing now and then.

Best of DX,

Donald B. Daniel
Chief Engineer
