Mr. Ernest R. Cooper
438 East 21st Street
Brooklyn 26, New York

Dear Sir

This is to verify and thank you for your report of reception of our signals on our regularly scheduled test program with Point Reyes Station California. This program is broadcast every second monday of each month from 1:30 to 1:45 AM PST for frequency checks. We are always interested to hear from DXers, and always try to give confirmation.

Our equipment here consists of a G.E. BT-20A transmitter running 250 watts to a single 150 foot tower. We use Gates speech equipment throughout.

Thank you again for your report.

Above is a copy of the letter we have been sending as confirmation of the many reports we have received on our test program of Feb. 9.

For your information there is enclosed a folder which should answer your questions. My picture is not shown because I am leaving the station at the end of this month.

We are completely independent since Liberty became defunct. The station has been on the air since 1947 with the operational day from 6:30 in the morning to 12:05 at night.

Sincerely yours

Ralph L. Spaulding

Ralph L. Spaulding
