Dear Mr. Cooper:

This is to verify your report of the reception of Station WBDS on May 30, 1963 from 2:16:30 to 2:38:10 Am E.D.T.

WBDS operates on 1570 kilocycles with 1000 watts of power, day time broadcast only, using one tower.

This will give you an idea of your reception of this station.

Very truly yours,

Paul J. Kuziak
