Dear Mr. Cooper;

Thank you very much for your reception report. I found it interesting and accurate. I believe that this is one of the most distant reports received during the normal broadcast day. WCOY changed call letters to WHEX in March of 1971 because of ownership change.

Enclosed please find one of our coverage maps. Frequency checks are done during the day and I cannot give you an exact date or time of our next test period. We will, however, be installing a new remote control unit in the morning hours of November 7 or 14. Hope that you will have better luck in the future.

Best regards,

Donald C. Shank, CE
