TELEPHONES: NEW CASTLE 5050 ELLWOOD CITY 77

December 16, 1940

Mr. Ernest R. Cooper
438 East 21 Street
Brooklyn, N. Y.

Dear Mr. Cooper:

Many thanks for your fine DX report of recent date. Success at last! Hi! This is to confirm reception of station WKST as reported by you on December 12, 1940.

As to the February test we will be most happy to dedicate the February test to the NRC and will make the suggested announcement.

As the selection "Semper Fidelis" is a ASCAP number it will be impossible to open up with it as on January 1, 1941 we will play only BMI Music.

Your club may want to know that on or about the first of February we will be testing our new directional setup, and hope to be on the air unlimited time by the latter part of that month. Our general direction of best reception will then be directly north and south, at which time you New Yorkers will have your troubles in bringing us in.

Again thanks for your report and will see to it that NRC gets full credit for the February test.

Radiospectfully,

A. W. Graham
