Dear Ernest:

We received your letter dated January 6, and want to start off first by saying:

"WE ARE SORRY" FOR THE LONG DELAY
in getting back to you.

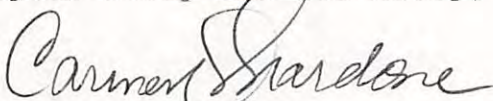

All of us here at WMXH enjoy getting mail, especially from someone so far away that can hear our station. Our problem is staff and time.

We are understaffed with little time. What happens is someone will open mail and put it away, other times we say we'll get a reply out soon, but we never get to do it.

As owner of WMXH Radio it is a pleasure to hear from you so far away. It's nice to hear someone say we sound so friendly and informal. Our goal at WMXH is to be a people radio station, no stuff shirts or personalities, but announcers that relate to the listeners. It's tough sometimes with some of the people we had here, that is why changes were made in the past several months.

WMXH Radio went on the air June 26, 1993. We broadcast with 1600 watts with our studio in Taylor, PA, just outside of Scranton. Our antenna is in Jefferson Township, PA on top of Moosic Mountain (one of the highest) and we are licensed to the town of Olyphant, PA. Former call signs of this channel were WGRE and WWAX. We purchased the station in 1993 and went on the air as WMXH--
THE STATION THAT'S ALL MIXED UP!

Again sorry for the delay, and THANK YOU for writing again.

Carmen V. Nardone
General Manager, WMXH

PS David Seliga is still here, personal friend who has been involved from the beginning.
