Engineer, W.O.T.R.
Corry, Penna.
May 19, 1955

Dear Ernest,

I received your letter of May 3, 1955 in which you stated that you received our unmodulated carrier signal on April 3, 1955 between 2:00 AM and 3:00 AM, and also modulated carrier between 3:22 AM and 3:25 AM. I am glad many people in Buffalo can hear us now and would like to say W.O.T.R. is doing fine with regular programming over the air from 6:30 AM to 8:30 PM every day except Sunday when we go on the air at 8:00 AM. I also make frequency checks once a month when R.C.A. Laboratories in Riverhead, N. Y. order us to

ASSOCIATE STATIONS

WKRZ, OIL CITY, PA.; WEMR, EMPORIUM, PA.

do so. The checks are in the early mornings.

I am the new engineer here, for Ken Bowers left at the end of April.

Corry is a small town with very friendly people and has a small population. It is very countrylike with much farming. I don't know how Corry was named, however.

Respectfully,
James B. Rankin,
Engineer, W.O.T.R.
