Dear Mr. Cooper:

Thanks for your DX Report. Sorry that the conditions were not so good. We will try again early in January to see how many others are able to pick up our signal.

We operate daily from 6:00 A.M. to 11:00 P. M. Atlantic Standard Time. On November 15th, our signal was received by DXers in Sweden and we received a nice report from there.

You will hear soon the official date we will make another trial. Your report is appreciated.

Cordially,

  
Ricardo Vega, BS  
Manager
