

May 19, 1986

Mr. Ernest R. Cooper
5 Anthony Street
Provincetown, Ma. 02657

Dear Ernest:

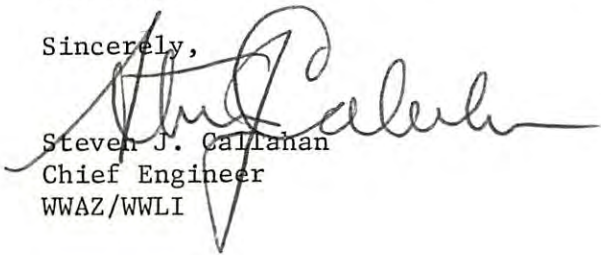

Your DX report to Don Hallett has been handed to me for a response. I can verify your reception of WWAZ (once WEAN) 5/13/86 from 10:01A until 10:19A. I always enjoy the completeness and accuracy of your DX reports. It seems that recently I have received a large amount of spotty reports which mention that they received calls and very little other examples of programming and then ask for confirmation. Unfortunately, I can't confirm on such little data. Last week I got a phone-in DX report! A fellow said he had heard the station but couldn't tell me any more about the programming heard by him!

As to your inquiry as to the WEAN call letters..in the Providence market WEAN is so tightly associated with all-news radio, we felt that a change from news to music would be more fully accepted if there were new, non misleading, calls. Personally, I was sorry to see the old calls go, but a new broom sweeps clean!

It was partially my decision to eliminate the downtime Sunday night/ Monday morning. So many stations in the area do go down during the time, that we decided to be there for those whose favorite station was not on the air. My apologies to the DX'ers, but consistency in programming and scheduling is helping to make this a bigger and better radio station.

Thank you again for your report..and keep listening to those good old songs!

Sincerely,

Steven J. Callahan
Chief Engineer
WWAZ/WWLI
