Brooklyn 26, New York

Dear Mr. Cooper:

This is to verify your report of reception of WJOY at 1:17 AM on March 27, 1949. Your report was correct in all respects.

Our engineers were testing the transmission line for a possible fault which later was found in another part of the circuit. We have conducted no regular frequency check program each month but only have identified our carrier when checking with RCA labs in Riverhead, Long Island.

We might conduct a DX program sometime next winter if approached at that time. We have, so far, refused all requests of this nature.

Good luck with your DX-ing.

Sincerely,

VERMONT BROADCASTING CORPORATION
