Dear Sir:

This is to verify your reception of KWWB on the morning of December 21, 1949. Your times check to the second with our log.

Transmitter here is a W.E. Model 451-A1. Our antenna is a 200 Foot Tower series fed with 300 foot radials.

We appreciate all reports from Dxers and answer all reports, so for the other DXers of your club you can tell them that we conduct a frequency check the third Wednesday morning of each month from 12:15 to 12:30 AM PST.

Very Truly Yours,

*T. T. Mc Fadden*
