Mr. Ernest R. Cooper
National Radio Club
438 East 21st.
Brooklyn 26, N. Y.

Dear Ernest:

This your letter of verification of reception of WOSH. We are glad to send it. The program items you submit as having received agree with those actually transmitted. We are glad you were able to hear us.

I have not yet been able to get out all the verifications, but hope to make a big hole in them again today. I imagine they will come to somewhere around 15, in fact I haven't even opened some of them as yet. I will send you a list, for your own interest. So far I don't believe any one requested a copy of the Bulletin, most of the reports were from members.

WMAM would be a problem, all-right. They can-not operate nights. Their frequency check is made during their regular day operating period. They sign on at 6:30 AM, CWT and at that time this time of year they should have sky wave, however there are others on 570 at that time too.

I think I may be able to arrange for January 30th with WIGM, as I have connections with them. I expect I will have the information in about 5 or 6 days at which time I will write you.

The announcere here had quite a bit of fun and got a kick out of our Sunday program.

Sincerely,
Nathan Williams
