

Mr. Ernest R. Cooper
5 Anthony Street
Provincetown, Massachusetts 02657

Dear Mr. Cooper:

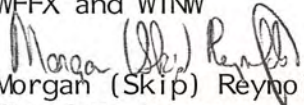

Sorry for being so tardy in getting out a reply to your letter. I have been in the process of doing a station rebuild here, and your letter somehow got to the bottom of the stack.

I am happy to confirm your reception of WFFX, Tuscaloosa, Alabama on June 15, 1993, between 6:39PM and 6:43PM.

WFFX went on the air as WTBC-FM in 1950 with an ERP of 17.5 KW. Power was increased around 1975 to 50 KW, and went to 100 KW in 1979. Our current transmitting facility was built in 1979 to bring out transmit height to 500 feet. WFFX is co-located with our sister AM, WTNW at 1 KW at 1230 KHZ.

Thanks for listening.

Yours very truly,
WFFX and WTNW

Morgan (Skip) Reynolds II
Chief Engineer
