

hour a program on concert-in-the-park style band music, and then an hour of all marches, likely the only such program in these United States! I also am the Monday host of our daily concert hall four-hour afternoon show, plus I do a weekly 15 minute interview show, "Community Profile." I used to correspond with WLRH's Darryl Adams, who has a band music program on that station, which is actually on the air at the same time as my show on WOMR, but I haven't heard from him in years, and I wonder if you might know if he still has that program Saturday mornings at 10 C D.T.?

Return postage is enclosed, gentlemen, and I will be happy to receive your reply. Might I also have one of your coverage maps, please? Am I, by chance, your furthest-ever listener?

It was a pleasure to hear WNDA, and I wish you Godspeed and - peace.

I have compared your observation with WNDA Program Log. IT is correct. You were receiving WNDA.

Our Furthest listener was in Montreal, Quebec Canada.
