Dear Mr. Cooper,

Ah Ha! And they said it couldn't be done with a 3,000 watt station, but obviously from your letters we have reached even the very tip of New England. I appreciated your letters and compliments and am quite proud of this new station now broadcasting out of Westerly, Rhode Island, but soon to change to a new location in Mystic, Connecticut.

WFAN Radio has been broadcasting since October 1981 from a 270' tower in Westerly atop a 160' rise. The station aims to have something for just about everyone (including 2 hours of jazz on Sundays, a mixture of pops and the Boston Celtics).

Keep us posted as to your own station's progress. Also thanks so much for the DX literature.

Sincerely,

  
Danny C. Lennon
