Mr. Earnest Coaper
5 Anthiny Street
Provincetown, Mass.

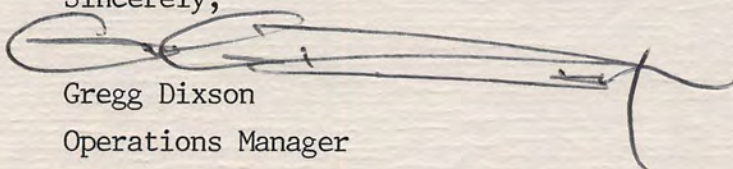

Dear Earnest,

Such a pleasant suprise on a rainy Monday morning to open the mail and we received your most interesting letter. As you can imagine, we were more than suprised to read that we were being heard "on the tip of the Cape". You certainly did hear us and we are all very excited about it. Your letter has been passed around for all our staff to read which, they are all thrilled about. You certainly made our day here at WNOU FM..We are going to try to pick up your station WOMR 91.9...if we can get it in I will let you know, immediatly. Meanwhile I'm enclosing some information about us that I think you will be interested in.

I'm sorry that no one replied to your previous letter but, we are under new management and we are all new from our operations manager to our sales staff so I hope that will explain why you did not hear from us. You may be sure any further correspondence will be answered as I am very much looking forward to hearing from you.

Once again, we would all like to thank you for taking the time to write to us.

Sincerely,

Gregg Dixson
Operations Manager
