Dear Mr. Cooper:

This is to verify your reception of WPBH on October 18th. WPBH operates with a power of 2 1/2 KW from 583 feet above average terrain in Middlefield, Connecticut.

The primary coverage area of WPBH has a radius of approximately 19 miles. However we have many listeners beyond this distance including a number on Long Island Sound.

Your reception report is among the furthest that we have received. It might interest you to know that WPBH has been on the air since June 1978 and has approximately 6,000 members.

Thank you for writing.

Sincerely,

A handwritten signature in blue ink that reads "John W. Kean". The signature is fluid and cursive, with a large loop at the end.

John W. Kean
