July 9, 1981

Mr. Ernest R. Cooper
National Radio Club
5 Anthony St.
Provincetown, Mass. 02657

Dear Mr. Cooper:

This is to verify your reception report of June 25, 1981, between 2:10 and 2:34 A.M. All program material in your report congrues with that on our station's program log. We at WQGN-FM, as well as our sister station, WSUB on 980 Khz, welcome reports from DX'rs like yourself, and are most enthusiastic to know we're being heard in places as far away as Provincetown.

I deeply regret not having made correspondence with you in the past - although my files on dx reports date back several years, I can find neither of your previous letters. Whether they were misplaced or simply didn't reach my office - I don't know, but please accept my apologies. Every effort is made in the engineering department to respond to all such letters.

I hope you'll tune in to us many times in the future - both FM and AM. Although our AM is a daytime-limited station, we will be transmitting on a test basis between approximately midnight and 1:00 A.M., Tuesday morning, July 14th. I hope you'll be able to catch it.

Sincerely,

Rich Williams

Richard J. Williams
Chief Engineer
