Provincetown, MA 02657

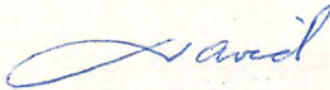

Dear Mr. Cooper:

You did indeed hear WYBC in the wee morning hours of September 30, I am pleased to say. I am astonished that our 1.2kw signal is able to reach the tip of the Cape, even if only very rarely. Usually WCTO blocks out our signal in distant areas.

A few facts about WYBC: We broadcast 24 hours a day, 365 days a year. We are Yale University's student-run radio station, although almost half of our members are volunteers from the New Haven community. We are a commercial radio station, although we are a non-profit corporation. We receive no funds from the University, so we must raise all of our money through commercial advertising.

We are considering a power increase in the near future--to 3kw. If we do accomplish this increase, you should be able to receive us more often. In the meantime, please let us know if you pick us up again.

Sincerely,

David H. Baron
General Manager
