

GENE FALTUS  
Chief Engineer

Ernest Cooper  
5 Anthony Street  
Provincetown, MA 02657

Mr. Cooper,

This letter will serve as confirmation of your reception of WZMX on Tuesday, November 1, 1994 from your home in Provincetown.

We were happy to receive the reception report. For the past couple of weeks, WCGY has been working on their antenna system. They are a station which is owned by the same parent company, American Radio Systems, and I am aware of the work that they are doing, and at times, they have either been off the air, or operating at reduced power.

We operate our transmitter from Meriden Mt. with a TPO of 18,000 watts, and a ERP of 17,000 into a two bay rototiller ERI antenna. It is within a few hundred feet of the old site we used as WLVH.

Best of luck,

A handwritten signature in blue ink that reads "Eugene R. Faltus".

Eugene R. Faltus  
Chief Engineer
