Dear Mr. Cooper:

Thank you very much for your letter dated July 19 logging reception of our station KLYF-FM here in Des Moines.

We have had some very peculiar weather and fronts that would permit the type of propagation which permitted reception of the FM station. The fact that the transmitting antenna is located some 1800 feet above ground on a 2,000 foot tower I am sure also contributed to some of this anomaly.

Enclosed please find a FM DX report card for your collection.

Sincerely,

Robert G. Engelhardt
