Provincetown, MA  
02657

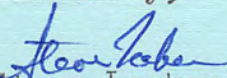

Dear Mr. Cooper:

Thank you for your reception report of KNIQ. This letter verifies your reception of KNIQ on June 15, 1987 at your location of Provincetown, MA, on 93.5<sup>FM</sup>. Hours: 7:30pm. CDT. KNIQ operates with 3kW with a two bay antenna up about 285 feet. Transmitter power is actually around 3<sup>1</sup>/<sub>2</sub>kW, but with line loss, and a two bay antenna that has no ~~gain~~ gain, it comes to 3kW.ERP. The antenna is on the center tower of our AM array. It has been on the air since March '86.

Sorry for the ~~delay~~ delay in getting this out to you but with vacations and all, we've been swamped. Thank you for the brochure you sent our way. I am interested in getting a new Canadian-American night-time pattern book. I think I'll contact Cambridge for info on that.

Thanks a gain for your report, and good DX-ing.

Sincerely,

  
Steve Locker  
Asst Engineer.
