Provincetown, MA 02657

Dear Sir,

This is to acknowledge your receipt of our signal as per your letter of June 8, 1989.

No one here is very much into amateur radio, but we do enjoy hearing from folks far away. We have heard from Florida and New York.

We operate with a Harris FM-10K transmitter with about 6 kw output into a 12 bay antenna at 300', for an ERP of 35 kw.

KPOF in Denver still plays band music on a regular basis, I believe. I used to work there.

Sincerely,

A handwritten signature in red ink that reads "Warren Wilson".

Warren Wilson  
Operations Manager
