Dear Mr. Cooper,

It was a thrill to hear from you! To think that you heard us on 7/25/88 is amazing.

We are a new station. Signed on the air at 3pm January 1, 1988. We have a 24,500 watt signal radiating from Brooks, Kentucky through a six bay signal aimed to the south of Louisville.

I'm enclosing a couple of newsletters and a bumper sticker for you. If you are ever in the area, stop in and see us.

Thanks again for writing.

Sincerely,

Gary M. Babb
