Dear Mr. Cooper,

You did hear WWNO on June 14, 1988. We carry ATC from 4:00 p.m. to 6:00 p.m. CDT and we do run a traffic break at 5:28.

It looks like you caught Harvey Haigy with the traffic report. We have a new industrial canal bridge called the Danziger Bridge and the Chef he refers to is the Chef Menteur road. It was closed while they destroyed the old bridge over the canal.

I was not here at the time of your other report but it looks like you heard us then, also. Bonnebel road is often the scene of traffic trouble and we carry ME from 5:00 a.m. to 8:00 a.m. You seem to have caught the proper break time for that old traffic report. The canal mentioned in the first report is probably the industrial canal.

I have relatives in Danbury, Connecticut so I guess your climate is similar. We have about the same type of weather, with the exception of higher temperatures and hurricanes.

I hope you still enjoy band music, I have played in some good wind ensembles in Chicago and found nothing like that down here.

Cordially,
