Dear Mr. Cooper--

I am very pleased to verify your letter of February 19th regarding your reception of WAQY on February 15th and 19th. Our station is at full power 24 hours a day, although our Chief Engineer will tell you that full power is 30,000 watts instead of the 50,000 listed here. Enclosed is a coverage map.

Thanks for listening!

Sincerely,

*Cheri Cronkite*
