Mr. Cooper -

Sorry to take so long returning your letter - yes, you were listening to WERS June 9; In fact, we often receive calls from listeners on the Cape, since only water separates Boston from p-town, the signal crosses quite easily.

Happy tuning!

Program Director

P.S. - Ever try T.V. Dx? I sometimes receive channels 9 & 11 from NYC in my apartment with an antenna on the roof, 11 floors up!
