Dear Mr. Cooper:

I'd like to confirm your recent reception of WGAO at your location. On February we changed frequency to 88.3 and increased our E.R.P. to 125 watts. I'm surprised to hear that our signal did get some strength out our way. We have WERS in Boston and WFCR in Amherst, Mass to the west and north which limits our listenership in these directions. However, I have had reports from listeners from Duxbury, Mass.

Thank you for the courtesy of the DX report and I hope that if you communicate with other DX'ers that you inquire of them as to any reception of WGAO in their area.

Sincerely,

Steven J. Callahan
