Ernest,

This letter is to verify reception of both WPXC Hyannis, and WRZE, Nantucket. it is not uncommon to receive letters verifying reception from locations much farther than Provincetown. we often get callers from Long Island, New Jersey, and even Maryland. Tropospheric enhancement is quite fascinating.

I am also a member of the WFTDA and have logged over 700 FM stations since 1993 from my location in West Yarmouth, less than ½ mile away from WXTK's transmitting location. I have noticed your reports in the monthly VHF-UHF digest and have noticed enhanced reception on those same days.

If you would like to contact me about anything related to DX, i'm always interested. My number at the station is below. I'm there any weekday from 9 to 5!

Happy DXing,

Steve "McVie" Solomon
