Mr. Ernest R. Cooper  
National Radio Club  
5 Anthony Street  
Provincetown, Mass.

Dear Mr. Cooper:

This letter VERIFY'S your report of reception of WVCA on 16 October, 1980.

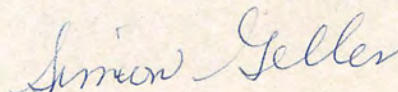

The new antenna tower was put into service on 4 May 1980, raising the antenna from 50 to 260' AAT.

WKZE and WPJB each run 50 KW Horizontal and 50 KW Vertical, or 100 KW total, WVCA runs 3 KW Horizontal only. However, power is not the problem, WKZE and WPJB Like most other rockers process their audio heavily to obtain at least 85 to 90% Modulation at all times. If a symphonic station did that you would not recognize the music.

I donot have a coverage map yet, but know that the FCC Primary 1 MV/M Covers almost all of the north shore.

WVCA is on 9.30 AM to 12.00 Midnight seven days a week.

Cordially yours:

Simon Geller
