Dear Ernest;

This is to verify Your Reception Report of July 29, 1985. The commercial log checks with the times on the QSL.

A reception of this type seems unusual and we do not receive many reports at all. Your doing real well and good luck in your future DX ing.

We are at 410 Feet above ground level of 240 Feet for an average of 650 feet AMSL from our 6 Bay H&v Ant. Input power is 18 Kw.
