Mr. Cooper,

This letter should serve as verification that on Sunday July 9, 1989 between 12:30 PM and 12:32 PM you did indeed receive our FM station WCMP at 92.1 on the dial. We have checked our program logs for that day and the Sports Report and Weather update with the correct temperature of 87 degrees you reported hearing was what aired.

Thank You for your letter of July 11th, our staff enjoyed hearing from you and we all found it interesting. I have enclosed our coverage map as you requested and a station bumper sticker.

Regards,

  
Tom Albrecht  
General Manager
